INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF THE PERRY COUNTY MEMORIAL HOSPITAL, PERRY COUNTY, INDIANA

We have audited the accompanying financial statements of the business-type activities, of the Perry County Memorial Hospital (Hospital) as of and for the year ended December 31, 2011, which collectively comprise the Hospital's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the Hospital's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Hospital's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Hospital as of December 31, 2011, and the respective changes in financial position and cash flows, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis as listed in the Table of Contents is not a required part of the basic financial statements but is supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Management's Discussion and Analysis Perry County Memorial Hospital

Our discussion and analysis of Perry County Memorial Hospital's (PCMH) financial performance provides an overview of PCMH's financial activities for the fiscal year ended December 31, 2011. Please read it in conjunction with PCMH's financial statements and accompanying notes to the financial statements.

Using This Annual Report

This annual report consists of two parts—Management's Discussion and Analysis, and the Basic Financial Statements.

In the "Management Discussion and Analysis" section of this report the management of the hospital discusses various components of the annual report and provides an analysis of the current financial statement information.

The "Basic Financial Statement" section of this report includes a series of financial statements that provide information about the activities of PCMH as a whole. The Statement of Net Assets reveals the assets and liabilities of PCMH on December 31, 2011 while the Statement of Revenues, Expenses, and Changes in Net Assets summarize the changes in the assets and liabilities for the year then ended. The Statement of Cash Flows summarizes the change in cash and cash equivalents as a result of the financial activity during the year. The Notes to the Financial Statements disclose additional information addressed within the body of the financial statements.

Financial Highlights

With decreases in some volume areas and decreases in net patient revenues, fiscal year 2011 was not indicative of a normal financial year for Perry County Memorial Hospital (PCMH). The following report represents changes in hospital operations as follows:

- Acute Care Discharges decreased 7.0%
- Patient Days decreased 6.0%
- Net Patient Revenue was equivalent to prior year.
- o Total Margin was 1.59%
- PCMH invested \$1,176,545 for Capital Equipment, Land, and Improvements in 2011
- Maximum Annual Debt Service coverage decreased to 1.83.
- Cash Not Restricted for Debt Service of \$13,932,686 is strong at 193 days cash on hand.
- O During the year, PCMH made the following significant Capital Expenditures:

- Ultrasound Transducer (\$10,500)
- 2011 Chevrolet Truck (\$28,325)
- Storz Intubation System (\$44,943)
- Fetal Monitors (\$42,030)
- Cardiac Monitors (\$259,340)
- PSC-Fiber Hook-UP (\$100,347)
- Care Facts Software for Home Health (\$16,125)
- IT Software & Hardware for EHR (\$779,300)

Utilization

Total Inpatient Services have decreased in volume, and Swing Bed volumes have decreased as well. Acute Care Discharges have decreased 7% from 2010 with an Average Length of Stay at 3.3 days and Acute Care Days have decreased by 6% from 2010.

Perry County Memorial saw an increase in several areas during 2011. Home Health Visits have increased 3%; Emergency Room Visits increased 5% and EMS volumes increased 22%. Outpatient Visits saw an increase of 2% while Physical Therapy and Occupational Therapy saw an increase of 20%. Laboratory saw an increase of 3%. Imaging Procedures decreased 9%; Respiratory Therapy Treatments have decreased 2%, and Surgical Operations have decreased by 6%.

Sources of Revenue

PCMH receives a significant portion of its revenues from government health programs, principally Medicare and Medicaid, which are highly regulated and subject to frequent and substantial changes. Revenues from the Medicare and Medicaid programs are 59.8% of gross revenues in 2011, down from 60.4% in 2010.

	<u>2011</u>	<u>2010</u>
Medicare	46.5%	46.3%
Medicaid	13.3%	14.1%
Commercial	30.5%	30.5%
Private	9.7%	9.1%

Legislative changes continue to limit or reduce the levels of payments from these programs. The Hospital elected to be designated as a Critical Access Hospital effective July 1, 2004. Under this designation Medicare Services have been reimbursed at 101% of reasonable costs. The Indiana Medicaid Managed Care program has also had an impact on reimbursement and contractual allowance.

Operating Results

PCMH's Financial Operations resulted in a 1.73% Operating Margin. This is a significant decrease from prior year of 6.27%. This was related to a loss of two full time employed physicians and another part time employed physician's retirement. PCMH's Net Income was \$527,247 with a Total Margin of 1.59%, and Investment Earnings of \$239,739. This includes the Foundation Endowment and Memorial Fund Earnings.

Operating Expenses of \$32,578,134 increased \$1,732,615 or 5.6% while revenues increased by 6.3% from prior year. Salaries and Benefits increased \$592,074 which related to an annual cost of living increase. Medical Fees increased \$316,225 for an increase in Physician services provided under arrangement including hospitalist services. A Cardiologist continues seeing patients on a seven day a week schedule. Medical supply costs increased \$333,936, Contracted Services increased \$150,972, and Other Expenses increased \$224,339.

Balance Sheet

Hospital Operating Cash and Investments decreased \$1,998,099 during the year. This was due to a significant investment in our Electronic Health Record project and continued investment for a new building project.

Accounts Receivable Days of 58.9 were under prior year of 62.0 days.

Long Term Debt to Capitalization Ratio is extremely favorable at 4.96% compared to the S&P-BBB of 42.70%. This reflects PCMH's strong Balance Sheet.

Cash Flows to Liabilities percentage experienced a change in 2011 to 36.81% compared to prior year of 64.15%. This is favorable when compared to the S&P-BBB of 16.6%.

Cash to Long Term Debt Ratio remains extremely favorable as Cash and Investments exceed Long-Term Debt Ratio is 451.65% (S&P-BBB 82.0%).

Capital Assets

At the end of 2011 PCMH had approximately \$13,444,898 invested in Capital Assets. This represents a net increase of \$701,195 that consists of \$559,188 in new Capital Purchases; Less: Assets retired for disposal or trade -in, \$250,642, an increase in Accumulated Depreciation by \$926,035, an increase in CIP in the amount of \$1,318,282 and an increase in Land of \$400. Capital Assets consist of:

	<u>2011</u>	<u>2010</u>
Land	\$2,945,631	\$2,945,231
Land Improvements	\$1,494,906	\$1,394,559
Buildings	\$10,365,854	\$10,329,023
Equipment	\$13,868,014	\$13,696,646
Total	\$28,674,405	\$28,365,459
Less: Accumulated		
Depreciation	(\$19,072,772)	(\$18,146,738)
Subtotal	\$9,601,633	\$10,218,721
Construction-In-Progress	\$3,843,265	\$2,524,984
Capital Assets	\$13,444,898	\$12,743,705

Debt: Loans and Capital Leases outstanding consisted of:

	<u>2011</u>	<u>2010</u>	
Capital Leases	\$148,172	\$194166	
Mortgages Payable	\$939,862	\$1,109,866	
Loan Payable	\$1,345,081	\$1,985,586	
Total Debt	\$2,433,115	\$3,289,618

I. Summary of Significant Accounting Policies

A. Reporting Entity

Perry County Memorial Hospital (Hospital) is a county-owned facility and operates under the Indiana County Hospital Law, Indiana Code 16-22. The Hospital provides short-term inpatient and outpatient health care.

The Board of County Commissioners of Perry County appoints the Governing Board of the Hospital and a financial benefit/burden relationship exists between the County and the Hospital. For these reasons, the Hospital is considered a component unit of Perry County.

On September 7, 1971, the Board of County Commissioners of Perry County, upon written request of the Hospital Board of Trustees created the Perry County Memorial Hospital Association. The Association was created pursuant to the provisions of Indiana Code 16-22-6 for the exclusive purpose of financing and constructing hospital facilities for the Hospital.

The accompanying financial statements present the activities of the Hospital (primary government) and its significant component units. The component units discussed below are included in the Hospital's reporting entity because of the significance of their operational or financial relationships with the Hospital. Blended component units, although legally separate entities, are in substance part of the government's operations and exist solely to provide services for the government; data from these units is combined with data of the primary government. Discretely presented component units are involved in activities of an operational nature independent from the government; their transactions are reported in a separate column in the basic financial statements to emphasize that it is legally separate from the Hospital.

Blended Component Units

The Perry County Memorial Foundation is a significant blended component unit of the Hospital. The primary government appoints a voting majority of the Foundation's board. Although it is legally separate from the Hospital, the Foundation is reported as if it were a part of the Hospital because it provides services entirely or almost entirely to the Hospital.

B. Enterprise Fund Accounting

The Hospital uses enterprise fund accounting. Revenues and expenses are recognized on the accrual basis using the economic resources measurement focus. Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the enterprise fund statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their enterprise funds, subject to this same limitation. The Hospital has elected to apply subsequent private-sector guidance.

C. Assets, Liabilities and Net Assets or Equity

1. Deposits and Investments

Cash and cash equivalents include demand deposits and investments in highly liquid debt instruments with an original maturity date of three months or less.

Short-term investments are investments with remaining maturities of up to 90 days.

Statutes authorize the Hospital to invest in interest-bearing deposit accounts, passbook savings accounts, certificates of deposit, money market deposit accounts, mutual funds, pooled fund investments, securities backed by the full faith and credit of the United States Treasury and repurchase agreements. The statutes require that repurchase agreements be fully collateralized by U.S. Government or U.S. Government Agency obligations.

Nonparticipating certificates of deposit, demand deposits, and similar nonparticipating negotiable instruments that are not reported as cash and cash equivalents are reported as investments at cost.

Debt securities are reported at fair value. Debt securities are defined as securities backed by the full faith and credit of the United States Treasury or fully insured or guaranteed by the United States or any United States government agency.

Open-end mutual funds are reported at fair value.

Money market investments that mature within one year or less at the date of their acquisition are reported at amortized cost. Other money market investments are reported at fair value.

Other investments are generally reported at fair value.

Investment income, including changes in the fair value of investments, is reported as nonoperating revenues in the Statement of Revenues, Expenses, and Changes in Net Assets.

2. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Capital Assets

Capital assets, which include land, land improvements, buildings and improvements, and equipment, are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed or donated assets are reported at estimated fair value at the time received.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods and estimated useful lives of capital assets reported in the financial statements are as follows:

	Capitalization Threshold		Depreciation Method	Estimated Useful Life		
Land improvements Buildings and improvements	\$	5,000 5,000	Straight-line Straight-line	AHA guide AHA guide		
Equipment		5,000	Straight-line	AHA guide		

For depreciated assets, the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

The total interest expense incurred by the Hospital during the current year was \$311,114. Of this amount none was included as part of the cost of capital assets under construction in connection with new medical facilities and various other renovation projects.

4. Net Assets

Net assets of the Hospital are classified in two components.

Net assets invested in capital assets net of related debt consist of capital assets net of accumulated depreciation and reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets.

Unrestricted net assets are remaining net assets that do not meet the definition of invested in capital assets net of related debt or restricted.

D. Grants and Contributions

From time to time, the Hospital receives grants from Perry County and the State of Indiana as well as contributions from individuals and private organizations. Revenues from grants and contributions (including contributions of capital assets) are recognized when all eligibility requirements, including time requirements, are met. Grants and contributions may be restricted for either specific operating purposes or for capital purposes. Amounts that are unrestricted or that are restricted to a specific operating purpose are reported as nonoperating revenues. Amounts restricted to capital acquisitions are reported after nonoperating revenues and expenses.

E. Operating Revenues and Expenses

The Hospital's Statement of Revenues, Expenses, and Changes in Net Assets in Net Assets distinguishes between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing health care services – the Hospital's principal activity. Nonexchange revenues, including grants, and contributions received for purposes other than capital asset acquisition, are reported as nonoperating revenues. Operating expenses are all expenses incurred to provide health care services, other than financing costs.

F. Net Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. Net patient service revenue represents the estimated net realizable amounts from patients, third-party payors, and others for services rendered including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

G. Charity Care

The Hospital has a policy of providing charity care to patients who are unable to pay. Such patients are identified based on financial information obtained from the patient and subsequent analysis. Because the agency does not expect payment, estimated charges for charity are not included in revenue.

H. Supplies

Inventories of drugs and other supplies are stated at the lower of cost (first-in, first-first-out) or market.

I. Compensated Absences

1. Sick Leave

Hospital employees earn sick leave at the rate of 12 days per year. Unused sick leave may be accumulated to a maximum of 30 days. Accumulated sick leave is not paid to employees upon retirement or termination.

2. Vacation Leave

Hospital employees earn vacation leave at rates from 5 days to 25 days per year based upon the number of years of service. Accrued vacation may be used upon completion of a 90-day waiting period. It is highly recommended that employees use their allotted vacation time yearly. Unused vacation leave is paid to employees through cash payment upon termination.

Vacation leave is accrued when incurred and reported as a liability.

No liability is reported for sick leave.

J. Fair Value of Financial Instruments

The following methods and assumptions were used by the Hospital in estimating the fair value of its financial instruments:

Cash and Cash Equivalents

The carrying amount reported in the Statement of Net Assets for cash and cash equivalents approximates its fair value.

Short-Term Investments

The carrying amount reported in the Statement of Net Assets is the investment's fair value on the day it becomes a short-term investment.

Investments

Fair values, which are the amounts reported in the Statement of Net Assets, are based on quoted market prices, if available, or are estimated using quoted market prices for similar securities.

Accounts Payable and Accrued Expenses

The carrying amount reported in the Statement of Net Assets for accounts payable and accrued expenses approximates its fair value.

II. Detailed Notes

A. Deposits and Investments

1. Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. Indiana Code 16-22-3-16 allows a Hospital Governing Board to deposit public funds in a financial institution. The Hospital does not have a formal policy regarding custodial credit risk for deposits. The bank balances were insured by the Federal Deposit Insurance Corporation or the Public Deposit Insurance Fund, which covers all public funds held in approved depositories.

2. Investments

Authorization for investment activity is stated in Indiana Code 16-22-3-20. As of December 31, 2011, the Hospital and the Foundation had the following investments:

Investment Type	Primary Government Market Value			
Mutual Funds Certificates of Deposit	\$	3,664,221 2,704,795		
Totals	\$	6,369,016		
Investment Type		Hospital Foundation Market Value		
Mutual Funds	\$	1,055,974		

Statutory Authorization for Investments

Indiana Code 16-22-3-20 authorizes the Hospital to invest in:

Any interest bearing account that is authorized to be set up and offered by a financial institution or brokerage firm registered and authorized to do business in Indiana.

Repurchase or resale agreements involving the purchase and guaranteed resale of any interest bearing obligations issued or fully insured or guaranteed by the United States or any United States government agency in which type of agreement the amount of money must be fully collateralized by interest bearing obligations as determined by the current market value computed on the day the agreement is effective.

Mutual funds offered by a financial institution or brokerage firm registered and authorized to do business in Indiana.

Securities backed by the full faith and credit of the United States Treasury or fully insured or guaranteed by the United States or any United States government agency.

Pooled fund investments for participating hospitals offered, managed, and administered by a financial institution or brokerage firm registered or authorized to do business in Indiana.

Investment Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The Hospital does not have a formal investment policy for custodial credit risk for investments.

The Hospital Foundation has not adopted an investment policy for custodial credit risk for investments.

The investments held by the Hospital and the Foundation are not exposed to custodial credit risk because they are in the Hospital's or Foundation's name.

B. Accounts Receivable and Payable

Patient accounts receivable and accounts payable (including accrued expenses) reported as current assets and liabilities by the Hospital at year end consisted of these amounts:

Patient Accounts Receivable

Receivable from patients and their insurance carriers	\$	5,056,453
Receivable from Medicare		2,935,552
Receivable from Medicaid		1,041,352
Total patient accounts receivable		9,033,357
Less allowance for uncollectible amounts		3,327,637
Patient accounts receivable, net	\$	5,705,720
	_	

Accounts Payable and Accrued Expenses

Payable to employees (including payroll taxes) Payable to suppliers	\$ 1,022,685 1,173,296
Total accounts payable and accrued expenses	\$ 2,195,981

C. Capital Assets

Capital asset activity for the year ended December 31, 2011, was as follows:

Primary Government	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets, not being depreciated:				
Land	\$ 2,945,231	\$ 50,320	\$ 49,920	\$ 2,945,631
Construction in progress	2,524,984	1,749,979	431,698	3,843,265
Total capital assets, not being depreciated	5,470,215	1,800,299	481,618	6,788,896
Capital assets, being depreciated:				
Land improvements	1,394,559	100,347	-	1,494,906

Equipment	13,696,646	422,010	250,642	13,868,014
Totals	25,420,228	559,188	250,642	25,728,774
Less accumulated depreciation for:				
Land improvements	1,163,682	39,142	-	1,202,824
Buildings and improvements	5,719,535	342,690	-	6,062,225
Equipment	11,263,522	794,711	250,510	11,807,723
Totals	18,146,739	1,176,543	250,510	19,072,772
Total capital assets, being depreciated, net	7,273,489	(617,355)	132	6,656,002
Total primary government capital assets, net	\$ 12,743,704	\$ 1,182,944	\$ 481,750	\$ 13,444,898

D. Construction Commitments

Construction work in progress is composed of the following:

		xpended to ecember 31,			
<u>Project</u>		2011	Committed		
Master planning Electronic Health Records	\$	2,961,778 881,487	\$	2,961,778 881,487	
Totals	\$	3,843,265	\$	3,843,265	

E. Leases

1. Operating Leases

The Hospital has entered into an operating lease having initial or remaining noncancelable terms exceeding one year for Pharmacy equipment. Rental expenditures for this lease were \$45,262. The following is a schedule by years of future minimum rental payments as of year end:

2012 2013	\$ 45,262 30,174
Total	\$ 75,436

2. Capital Leases

The Hospital has entered into a capital lease for equipment. Future minimum lease payments and present values of the net minimum lease payments under the capital lease as of year end, are as follows:

2012 2013 2014 2015	\$ 49,703 49,703 49,703 4,142
Total minimum lease payments	153,251
Less amount representing interest	 5,079
Present value of net minimum lease payments	\$ 148,172

Assets acquired through capital leases still in effect are as follows:

Machinery and equipment	\$	235,471
Accumulated depreciation		(78,490)
Total	\$	156,981
Total	Ψ	

F. Long-Term Liabilities

1. Mortgages and Loans Payable

The Hospital has entered into various mortgages and loans. Annual debt service requirements to maturity including interest of \$ 217,054, are as follows:

Year Ended December 31	 Principal	 Interest
2012	\$ 711,452	\$ 83,235
2013	440,079	57,413
2014	428,234	37,553
2015	303,511	19,691
2016	147,849	10,646
2017-2021	 253,818	 8,516
Totals	\$ 2,284,943	\$ 217,054

2. Changes in Long-Term Liabilities

Long-term liability activity for the year ended December 31, 2011, was as follows:

Primary Government	_	Beginning Balance	_	Additions	R	eductions	_	Ending Balance	ue Within One Year
Capital leases Mortgage payable Loans payable	\$	194,166 1,080,647 2,014,804	\$	- - -	\$	45,994 140,785 669,723	\$	148,172 939,862 1,345,081	\$ 46,989 105,461 605,992
Total long-term liabilities	\$	3,289,617	\$		\$	856,502	\$	2,433,115	\$ 758,442

G. Net Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

1. Medicare

Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Inpatient non-acute services, such as provided by critical assess hospitals, and defined capital and medical education costs related to Medicare beneficiaries are paid based on a cost reimbursement methodology. The Hospital is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicare fiscal intermediary. Home Health and ambulance services are not included in this cost reimbursement.

2. Medicaid

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed using a predetermined fee schedule.

Revenue from the Medicare and Medicaid programs accounted for approximately 46.5 percent and 13.3 percent, respectively, of the Hospital's net patient revenue for the year ended 2011. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

The Hospital also has entered into payment agreements with certain commercial insurance carriers, HMO's, and preferred provider organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, discounts from established charges.

H. Charity Care

Charges excluded from revenue under the Hospital's charity care policy were \$1,918,069 for 2011.

I. Internally Designated Assets

Noncurrent cash and investments internally designated include the following:

- 1. Funded Depreciation Amounts transferred from the Operating Fund by the Hospital Board of Trustees through funding depreciation expense. Such amounts are to be used for equipment and building, remodeling, repairing, replacing or making additions to the Hospital buildings as authorized by Indiana Code 16-22-3-13.
- 2. Designated Funds Assets set aside by the Hospital Board of Trustees for identified purposes and over which the Board retains control and may, at its discretion, subsequently use for other purposes.

1,001,226

Internally designated: Funded depreciation: Cash and cash equivalents Board designation: Cash and cash equivalents NEG Loan Pledge Scholarship Fund Endowment Fund Total board designation \$ 303,624 \$ 330,602 212,000 55,000 100,000

Total internally designated

III. Other Information

A. Risk Management

The Hospital is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; medical benefits to employees, retirees, and dependents (excluding postemployment benefits); and natural disasters.

The risks of torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; and natural disasters are covered by commercial insurance from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance by major category of risk.

Medical Benefits to Employees, Retirees, and Dependents (Excluding Postemployment Benefits)

The Hospital has contracted with a Third Party to administer the Perry County Memorial Hospital Employee Benefit Trust, an account created to service employee health benefit claims and administrative costs of the program. This is a pay as you go system and claims are expensed as incurred. An excess policy through commercial insurance covers individual claims in excess of \$37,500 per year. Settled claims resulting from this risk did not exceed commercial insurance coverage in the past three years. A premium is charged to each fund that accounts for employee payroll. The total charge allocated to each of the funds is calculated using trends in actual claims experience. Provisions are also made for unexpected and unusual claims.

B. Subsequent Events - New hospital project

Perry County Memorial Hospital is currently developing a deal for a USDA loan to build a replacement facility in Perry County. This facility will be an 117,000 square feet, 25-bed critical access acute care hospital located on State Road 237.

C. Contingent Liabilities

Litigation

The Hospital is involved in litigation and regulatory investigations arising in the course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the Hospital's future financial position or results from operations.

D. Fair Value Measurements

The Hospital has characterized its investments in securities, based on the priority of the inputs used to value the investments, into a three level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the investments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the investment.

Investments recorded in the statement of net assets are categorized based on the inputs to valuation techniques as follows:

Level 1 – These are investments where values are based on unadjusted quoted prices for identical assets in an active market the Hospital has the ability to access. Investments include mutual funds.

Level 2 – These are investments where values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the investments. These investments are comprised of corporate and municipal bonds that trade infrequently and certificates of deposit.

Level 3 – These are investments where values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect assumptions of management about assumptions market participants would use in pricing the investments.

Based upon the levels as defined the investments as of December 31, 2011, are classified as follows:

		Fair Value Measurements at Reporting Date Using:		
		Quoted Prices in Active Markets	Significant Other Observable	Significant Unobservable
Hospital	December 31,	For Identical	Inputs	Inputs
Investment Type	2011	(Level 1)	(Level 2)	(Level 3)

E. Pension Plan

Defined Contribution Pension Plan

Plan Description

The Hospital has a defined contribution pension plan administered by Plan Administrators as authorized by Indiana Code 16-22-3-11. The plan provides retirement, disability, and death benefits to plan members and beneficiaries. The plan was established by written agreement between the Hospital Board of Trustees and the Plan Administrator. The Plan Administrator issues a publicly available financial report that includes financial statements and required supplementary information of the plan. That report may be obtained by contacting:

Plan Administrators, Inc. 115 S. Wisconsin Street Depere, WI 54775-2765 Ph. (920)337-9906

Funding Policy and Annual Pension Cost

The Perry County Memorial Hospital Board of Trustees approved a Discretionary Contribution to the 403(b) retirement accounts of eligible employees of 3 percent of the annual covered salary plus an optional 3 percent matching contribution. Employer and employee contributions to the plan were \$454,368 and \$398,296, respectively.

F. Ambulance Service Subsidy

Perry County Memorial Hospital provides ambulance service for Perry County residents, including the cities of Cannelton and Tell City, through an agreement dated July 1986. The agreement provides that Perry County is to reimburse the Hospital, on monthly basis, for the amount that expenses exceeded revenues for the period. During 2011, the County reimbursed the Hospital \$21,258 for ambulance services.

This amount is included in the financial statement in other operating revenue.

PERRY COUNTY MEMORIAL HOSPITAL EXIT CONFERENCE

The contents of this report were discussed on May 7, 2012, with Joseph Stuber, Executive Director, and Kathy Clayton, Treasurer. Our audit disclosed no material items that warrant comment at this time.

Separate telephone exit conferences were held with the following Board members: Dr. Joe LeClere, Grant Taylor, Don Etienne, John B. Land, Tim Harding and Rita Mahoney.
